The products are to be dispatched from: \_\_\_\_\_  
(Place of dispatch)

to: \_\_\_\_\_  
(Country and place of destination)

Means of transport: \_\_\_\_\_

Name and address of consignee: \_\_\_\_\_

#### IV. Attestation

The undersigned official inspector hereby certifies that:

1. The dairy plant is approved by and subject to supervisions, inspections and audits from the Norwegian Food Safety Authority.
2. The products are manufactured in compliance with official Norwegian Regulations and according to:
  - a. Regulation (EC) No 178/2002 of the European Parliament and of the Council of 28 January 2002 laying down the general principles and requirements of food law, establishing the European Food Safety Authority and laying down procedures in matters of food safety.
  - b. Regulation (EC) No 852/2004 of the European Parliament and of the Council of 29 April 2004 on the hygiene of foodstuff.
  - c. Regulation (EC) No 853/2004 of the European Parliament and of the Council of 29 April 2004 laying down specific hygiene rules for food of animal origin.
  - d. Regulation (EC) No 854/2004 of the European Parliament and of the Council of 29 April 2004 laying down specific rules for the organisation of official controls on products of animal origin intended for human consumption.
  - e. Commission Regulation (EC) No 2073/2005 of 15 November 2005 on microbiological criteria for foodstuffs
3. The products have been prepared, packed, stored and transported under good hygienic practice and an effective food safety control system, implemented within the context of HACCP system.
4. The milk or milk-based products were subjected to the process of pasteurisation at 72°C for more than 15 seconds.
5. The products have been subjected to general surveillance scheme by the dairy including laboratory tests to validate the microbial quality.
6. The products may freely be sold in Norway and are fit for human consumption.
7. The milk and milk product derived from animals resident in Norway.
8. The products were prepared from milk from farms that are under official veterinary control system, and the milk is as far as officially known from clinically healthy animals.
9. The milk derives from a country that is free from infection listed in O.I.E's former A list. This include that Norway is free from foot-and-mouth disease and rinderpest. The milk has never been in any region where foot and mouth disease and rinderpest exists.
10. Norway is free from Brucellosis (*B. abortus*, *B. melitensis*), Tuberculosis and Bovine leukosis.
