Temperature required during storage and transport: ______ °C

**II. Provenance of the milk and dairy products**

Approval number, name and address of the dairy plant(s):

________________________________________________________________________

________________________________________________________________________

Name and address of consignor:

________________________________________________________________________

________________________________________________________________________

**III. Destination of the milk and dairy products**

The products are to be dispatched from: ____________________________ (Place of dispatch)

to: ____________________________ (Country and place of destination)

Means of transport: ____________________________

Name and address of consignee: ____________________________
IV. Certification

The undersigned official inspector hereby certifies that:

1. The dairy plant is approved by and subject to supervision and inspection from the Norwegian Food Safety Authority.

2. The products are manufactured in compliance with the following official Norwegian Regulations:

3. The products have been prepared, packed, stored and transported according to the HACCP programme implemented by the establishment (-s) in order to control hazards.

4. The products may freely be sold in Norway and are fit for human consumption.

5. The milk is received from Norwegian dairy farms, which are subject to supervision by the Norwegian Food Safety Authority.

6. According to OIE’s Resolution no. 17 (79th General Session May 2011), Norway has a negligible BSE risk. Norway has a surveillance program according to Regulation (EC) no. 999/2001 of the European Parliament and of the Council of 22 May 2001 laying down rules for the prevention, control and eradication of certain transmissible spongiform encephalopathies. BSE has never been recorded in Norwegian dairy farms.

7. Animal products manufactured in Norway are subject to a surveillance program for dioxin and dioxin like PCB in accordance with Council Directive 96/23/EC of 29 April 1996 on measures on monitor certain substances thereof in live animal and animal products. Regulation (EC) no. 1881/2006 of 19 December 2006 setting maximum levels for certain contaminants in foodstuffs sets maximum residue limits (MRL) for dioxin, PCB etc. in milk and dairy products. According to the legislation, any products found non-compliant with EU’s MRL, can not be placed on the marked.
